

KLK3 抗原(重组蛋白)

中文名称: KLK3 抗原(重组蛋白)

英文名称: KLK3 Antigen (Recombinant Protein)

相关类别: 抗原

储 存: 冷冻(-20℃) 避光

概述

Fusion protein corresponding to N terminal 258 amino acids of human KLK3

技术规格

Full name:	Kallikrein-3
Synonyms:	APS, PSA
Swissprot:	P07288
Gene Accession:	BC005307
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	KLK3 is a member of the kallikrein-related peptidase family se creted by the epithelial cells of the prostate gland and lead to the liquefaction of the seminal coagulum. It is thought to func tion normally in the liquefaction of seminal coagulum, presum ably by hydrolysis of the high molecular mass seminal vesicle protein. Serum level of this protein, called PSA in the clinical s etting, is useful in the diagnosis and monitoring of prostatic c arcinoma.
